Poker Machine Blues

Lyrics by Monwell Taukie Levi @ 16/71 Morrison Street Kambah ACT 19/08/2007.

It seems I work hard for nothing
Living from pay to payday
Money in these hands melts like butter
The more I had, the more I threw away
Got nothing left to show for
Only got red against my name

Turned serial liar
King of excuses
Dodging bills like a bullet
Getting calls from the debt collector
Now I'm counting all but silvers
When I should banking all my lucky stars
Poker machines lured me to gamble
That was just the start

I wish I never knew such a thing
Gambling so depressing even more when you don't win
One day I'll learn, the lessons of this life
Never gamble
Spend your money right

Rarely you break even as most time your there to lose
You find yourself chasing all the money you put through
Those machines are programmed
To take away your soul
And with the ATM around the corner
You're bound to leave broke

I get them poker machine blues
I get them poker machine blues
Take your winnings while you're up
Leave before you come unstuck
By the poker machine blues

By them poker machine blues
By the poker machine blues
Take your winnings while you're up
Leave before you come unstuck
By the poker machine blues

It's time likes these I should know better
But I still go back for more
You'd think I'd get tired of having those empty feeling
When you walk out that door
With not a cent against my name
What a shame, what a shame

I get them poker machine blues
I get them poker machine blues
Take your winnings while you're up
Leave before you come unstuck
By the poker machine blues

By them poker machine blues
By the poker machine blues
Take your winnings while you're up
Leave before you come unstuck
By the poker machine blues
